Mr. Campbell took  
his own life.

He could no  
longer bare to live  
with his results of  
LASIK surgery.

Amanda: Thank You and I Love You.

#### NOTES

Jason: I am truly sorry that we could not see eye to eye after the "eye surgery". You are right in one sense, the eye surgery literally changed my life. However, please learn and understand life. (respect)

Katie: For you, Ciff (A fine young man) and the baby, I wish you the best in your new life. You and I were so close then torn so far apart.

Mary: My best friend in the whole world. You said it best: "no one knows what I am feeling".

Constant pain, blurred vision, stress that I never had before. If only DR. SARKIS had done a pre-op and knew I was not a candidate for lasik surgery.

No one understands truly my <sup>(financial/personal)</sup> burden I carry. Dry eyes; cannot light a fire, cannot stand in front of air conditioning. Cannot cook without opening a window. Cannot spray deodorant. The list goes on and on. I just cannot burden my family for a poor decision (eye surgery), which <sup>Dr. Sarkis</sup> knew was wrong, but only wanted money!

AND I will not live on drugs. (Zanax) I never used that drug wrong. A half a milligram at night and ~~sparingly~~ sparingly in the afternoon on a bad day. I am not a drug user! Never could I do this as it has ruined so many lives.

OVER;

In his suicide note, he  
warns:

**“DO NOT HAVE  
LASIK SURGERY!”**

**“Tell the Media!!!”**

DO NOT HAVE LASIK SURGERY!  
Tell the **NOTES** media!!!

To Laurie and Marcie in dispatch,  
Thank you for being part of my support  
group. Just some one to listen means  
so much to someone in pain and despair.

To Jim Campbell & Ritchey Knight for being  
so kind in working with me the last two  
years. The comfort it gave me is undescribeable.

(Knee)  
Even though I thank you for light duty  
Rick Watson & your favoritism towards  
the police department. Maxwell, Bowling  
myself and others deserved to be  
a shift supervisor. You kept asking  
me if I would retire, with what?

\$55,000.00 X 61% = Approx. \$33,550 before  
taxes. I could not support my family  
on that.

How much are you going to get?  
Are you going to see my family  
through this now? Do you really care?  
Or, is it about how much you will get?

Finally, I loved police work. I loved my  
uniform and my car. I loved and  
was good at what I did. Brentwood  
Thank you Brentwood  
I will miss being a police officer;  
the one thing I found in my life  
that was me; a Brentwood Police Officer!

Please bury me with a hat on my head.  
Whether or not I warrant a police funeral  
or just civilian. The hat be either Police  
or Predator.

Please play this song: Go Rest High on that Mountain

Mr. Campbell states that the surgeon who performed his surgery is to blame for his ultimate suicide.

#### NOTES

To blame for this:  
Sei Kin Eye Surgery  
Watson for never giving  
me the <sup>(rank or finances)</sup> opportunity to lead,  
(Failing family life!)  
eye surgery has taken  
my life out of me  
The pain - distorted vision  
chronic dry eyes  
is not bearable!!!

Thanks to all who were

there: Family / Bobby Rollins
